

IDEATION PHASE

Brainstorm & Idea Prioritization Template

Date 31 January 2025

Team ID _____

Project Name LegalEase – AI-Powered Legal Document Generator

Maximum Marks 4 Marks

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Problem Statement

People without a legal background often find it difficult, time-consuming, and expensive to create and understand legal documents such as employment contracts, NDAs, lease agreements, and service agreements.

Proposed Problem Solution

LegalEase is an AI-powered web application that helps users generate customized legal documents by entering simple information such as:

- Document type
- Parties involved
- Terms and conditions
- Effective date

The system generates a structured legal document that users can **preview, edit, and download** in different formats. The project specification describes AI generation through Gemini, a FastAPI backend, and document export functionality.

Team Discussion / Key Questions

1. How can we simplify legal-document creation?
2. How can users generate documents without advanced legal knowledge?
3. How can AI customize documents according to user requirements?
4. How can users edit the generated document?
5. How can the document be exported into useful formats such as TXT, DOCX and PDF?

Selected Problem

“Develop an AI-powered system that simplifies the creation of customized legal documents for individuals, freelancers, entrepreneurs, landlords and professionals.”

Step-2: Brainstorm, Idea Listing and Grouping

During brainstorming, the team generated the following ideas and grouped them into major categories.

Brainstorming Ideas

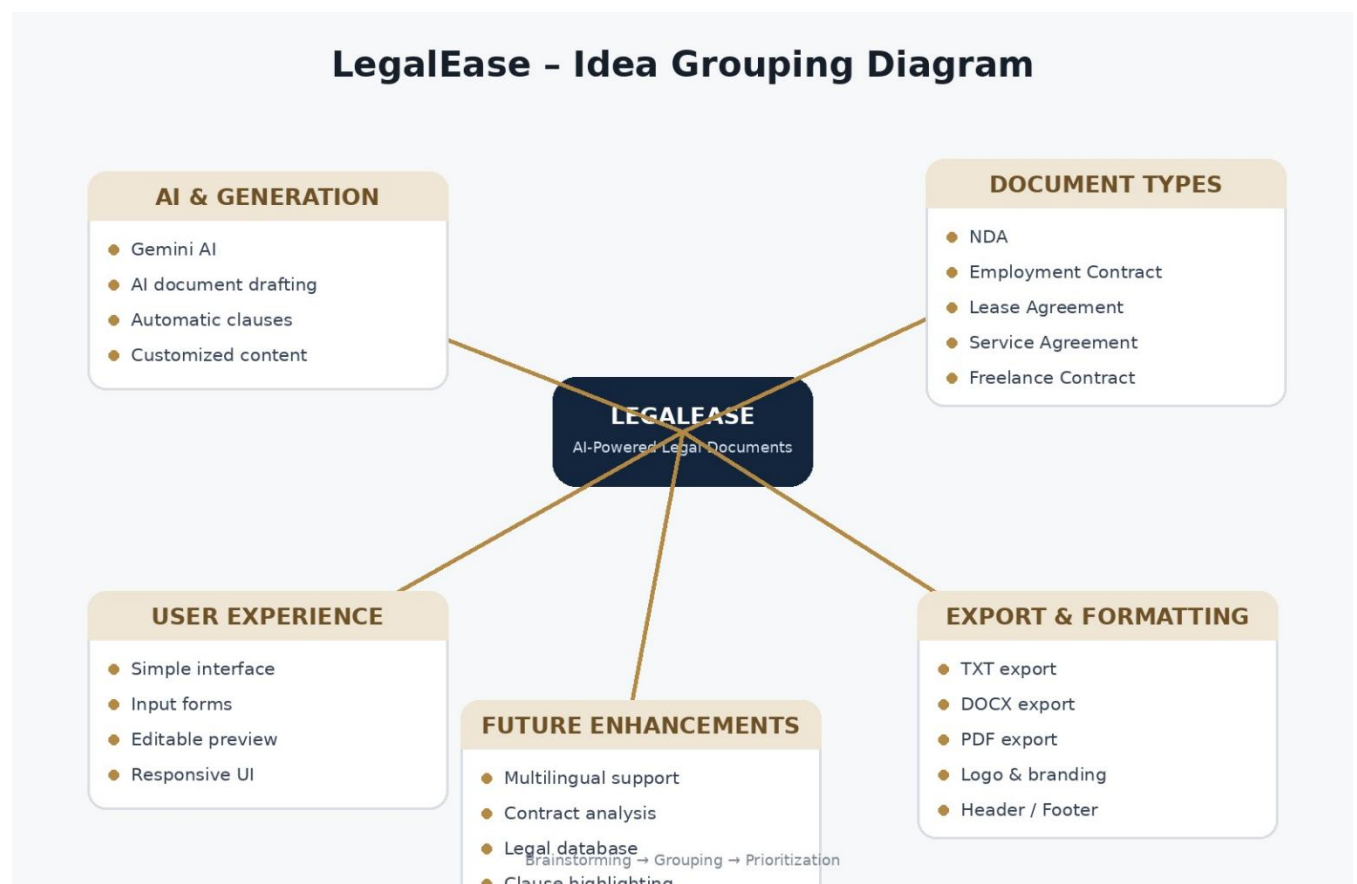

Category	Ideas
AI & Generation	AI legal document generation
	Gemini-based document generation
	Automatic clause generation
	Customized legal content
	AI-assisted document drafting
Document Types	Employment Contract
	NDA
	Lease Agreement
	Service Agreement
	Freelance Contract
User Experience	Employment Offer Letter
	Simple input form
	Editable document preview
	User-friendly interface
	Responsive design
Export & Formatting	Easy document generation
	TXT download
	DOCX download
	PDF download
	Professional formatting
Security & Reliability	Logo and branding
	Headers and footers
Security & Reliability	Secure handling of user data

Category	Ideas
	Structured document generation
	Document validation
	Professional formatting

Future Enhancements	Multilingual support
	Legal database integration
	Contract analysis
	Clause highlighting
	Plain-language summaries

The project specification specifically identifies document generation, editable previews, TXT/DOCX/PDF export, formatting, branding, and secure handling as core capabilities.

Idea Grouping Diagram

Step-3: Idea Prioritization

The ideas were prioritized based on their **importance to the main problem, usefulness to users, feasibility, and implementation effort.**

Idea Prioritization Matrix

Idea	User Value	Feasibility	Priority
AI Legal Document Generation	High	High	High
Multiple Document Types	High	High	High
Editable Document Preview	High	High	High
PDF/DOCX/TXT Export	High	High	High
Simple User Input Form	High	High	High
Professional Formatting	High	Medium	High
Logo & Branding	Medium	Medium	Medium
Multilingual Support	Medium	Medium	Medium
Legal Database Integration	High	Low	Future
Advanced Contract Analysis	High	Low	Future

Prioritization Diagram

Final Selected Ideas

After brainstorming and prioritization, the team selected these **core ideas for LegalEase**:

1. AI-Powered Legal Document Generation

Generate customized legal documents based on user-provided information.

2. Multiple Legal Document Templates

Support documents such as:

- Employment Contracts
- NDAs
- Lease Agreements
- Service Agreements
- Freelance Contracts

3. Editable Preview

Allow users to review and modify the generated document before downloading.

4. Multi-Format Export

Allow users to save documents as:

TXT → DOCX → PDF

5. Professional Document Formatting

Provide structured headings, clauses, tables, branding, logos, headers and footers.

These functions correspond closely to the documented LegalEase workflow, including generation, editing, preview, and export.
