

Data Flow Diagram & User Stories

Date	28 Sept 2026
Team ID	
Project Name	LegalEase – AI-Powered Legal Document Generator
Maximum Marks	4 Marks

The following is prepared in the **same format as your template**, using the LegalEase project specification. The specification describes a user entering document type, parties, terms and effective date; the request goes through the application/backend to Gemini; the generated document is previewed, edited and exported.

1. Data Flow Diagram (DFD)

Level-0 DFD / Context Diagram

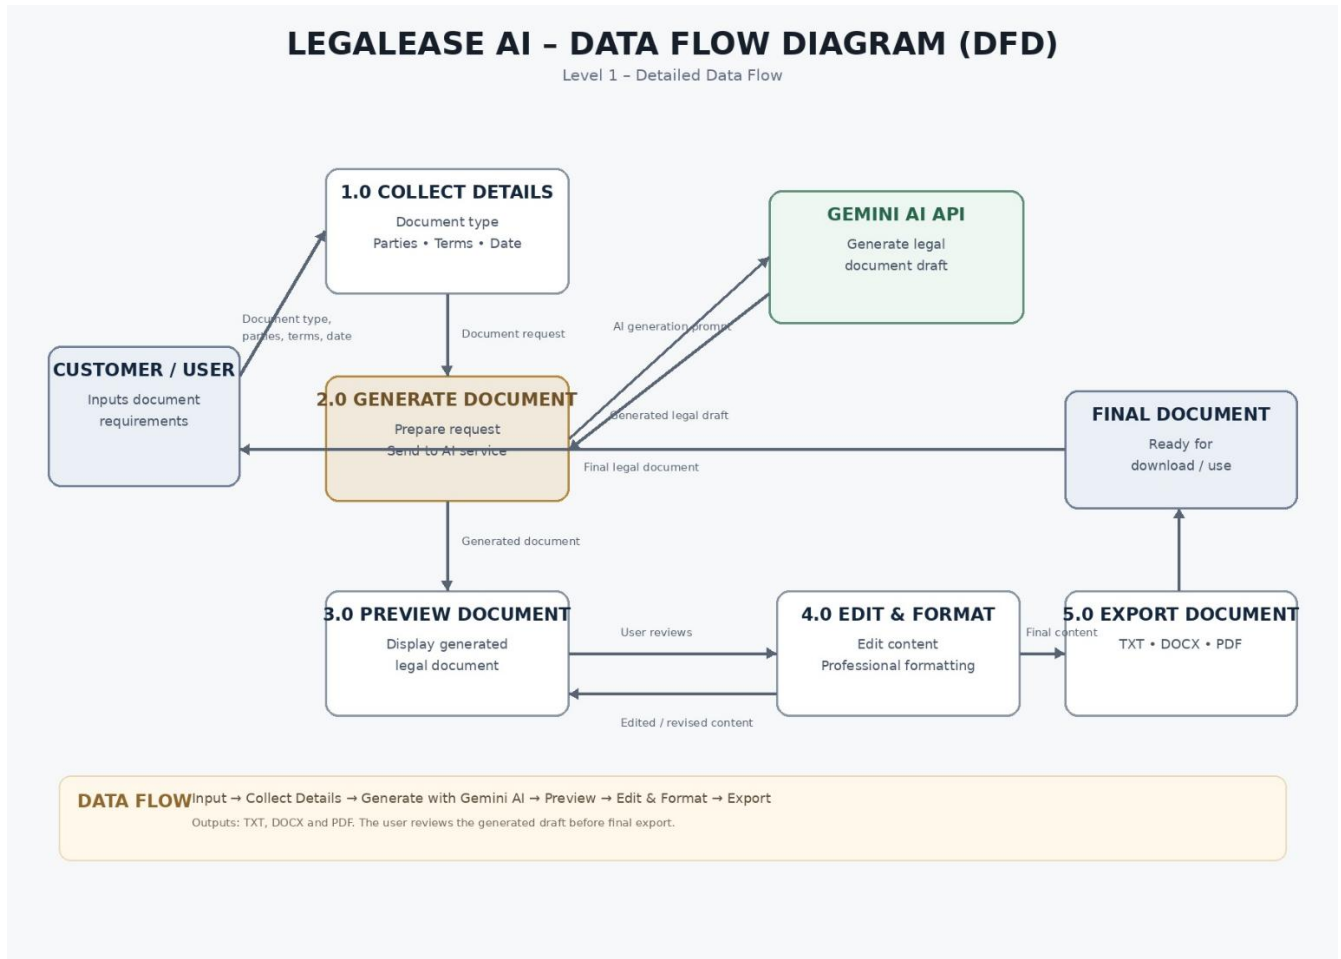

Main Data Flows

Source	Data	Process	Output
Customer/User	Document type	Document generation	AI-generated draft
Customer/User	Parties involved	Document generation	Customized content
Customer/User	Terms & conditions	AI processing	Legal clauses
Customer/User	Effective date	Document generation	Complete document
Gemini AI	Generated content	Preview & editing	Editable document

User	Edited content	Formatting/export	Final document
LegalEase	Final content	Export	TXT / DOCX / PDF

The project specification identifies **Gemini API**, **FastAPI**, document generation, preview/editing and **TXT/DOCX/PDF export** as the main workflow components.

2. DFD – Level 1

3. User Stories

User Story Table – LegalEase AI

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Customer / Web User	Document Generation	USN-1	As a user, I can select the type of legal document I want to create.	I can select a document type such as Employment Contract, NDA, Lease Agreement or Service Agreement.	High	Sprint-1

Customer / Web User	Document Generation	USN-2	As a user, I can enter the parties involved in the document.	I can enter the names/roles of the parties involved.	High	Sprint-1
Customer / Web User	Document Generation	USN-3	As a user, I can enter the terms and conditions required for my document.	I can enter multiple terms and conditions in the input form.	High	Sprint-1
Customer / Web User	Document Generation	USN-4	As a user, I can select the effective date of the document.	The selected effective date is included in the generated document.	High	Sprint-1
Customer / Web User	AI Generation	USN-5	As a user, I can generate a customized legal document using AI.	The system generates a document based on my document type, parties, terms and effective date.	High	Sprint-1
Customer / Web User	Document Preview	USN-6	As a user, I can preview the generated legal document before downloading it.	The generated document is displayed in a readable preview.	High	Sprint-1
Customer / Web User	Document Editing	USN-7	As a user, I can edit the generated document before exporting it.	I can modify the generated content and save the changes.	High	Sprint-1
Customer / Web User	Document Formatting	USN-8	As a user, I can view the document with professional formatting.	The document contains structured headings, clauses and readable formatting.	Medium	Sprint-2
Customer / Web User	TXT Export	USN-9	As a user, I can download the generated	A TXT file containing the final document is	Medium	Sprint-2

			document as a TXT file.	downloaded successfully.		
Customer / Web User	DOCX Export	USN-10	As a user, I can download the generated document as a DOCX file.	A DOCX file containing the final document is generated successfully.	High	Sprint-2
Customer / Web User	PDF Export	USN-11	As a user, I can download or save the generated document as a PDF.	The final document can be printed/saved as PDF.	High	Sprint-2
Customer / Web User	Branding	USN-12	As a user, I can receive a professionally formatted document with branding elements.	The document can contain logo, header and footer formatting.	Medium	Sprint-2
Customer / Web User	Document Types	USN-13	As a user, I can create different types of legal documents using the same application.	The application supports the specified legal document categories.	High	Sprint-1
Customer / Web User	Validation	USN-14	As a user, I should be informed when required document information is missing.	The system prevents generation until required fields are completed.	High	Sprint-1
Customer / Web User	Legal Review	USN-15	As a user, I can review the generated document before using it.	I can inspect and edit the generated draft before export.	High	Sprint-1

The document types listed above are based on the project specification, which includes employment contracts, NDAs, lease agreements, service agreements, freelance contracts and employment offer letters.

4. User Stories – Scenarios

You can also include the three major scenarios from the project:

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Startup Founder	Employment Contract	USN-16	As a startup founder, I can generate an employment contract for a new employee.	The system generates an employment contract using the employee/employer details and required terms.	High	Sprint-1
Freelancer	NDA Generation	USN-17	As a freelancer, I can generate an NDA for a potential client.	The system generates an NDA containing the provided parties and confidentiality terms.	High	Sprint-1
Landlord	Lease Agreement	USN-18	As a landlord, I can generate a residential lease agreement.	The system generates a lease agreement using the provided parties, terms and effective date.	High	Sprint-1
Customer / Web User	Preview & Editing	USN-19	As a user, I can review and modify the generated document before downloading it.	The generated document can be previewed and edited.	High	Sprint-1
Customer / Web User	Export	USN-20	As a user, I can export my final document in a suitable format.	TXT, DOCX and PDF export options are available according to the implemented release.	High	Sprint-2
