Customer Problem Statement

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A startup founder	Create an employment contract for a new employee	Creating a complete contract with appropriate clauses is difficult and time-consuming	I may not have sufficient legal knowledge to prepare professional legal documents	Confused and worried about making mistakes
PS-2	A freelancer	Create an NDA for a potential client	Preparing a structured NDA manually takes time	I may not know which confidentiality clauses and terms should be included	Uncertain and stressed
PS-3	A landlord	Create a residential lease agreement	Preparing and formatting a lease agreement manually is complicated	I may not have legal expertise or a ready-to-use customized template	Frustrated and concerned about missing important terms
PS-4	An individual or professional	Create and customize a legal document quickly	Traditional document preparation can require significant time and effort	Legal documents contain complex language and formatting requirements	Overwhelmed and less confident

The first three statements directly correspond to the startup-founder, freelancer, and landlord scenarios described in the LegalEase project document.

Main Problem Statement

Users without a legal background need a simple way to create customized legal documents, but preparing contracts, NDAs, and agreements manually is difficult, time-consuming, and requires understanding of legal language and formatting.
